

MOUNTED WHEEL

MAXIMIZED VALUE OF ALL TIRE ASSETS

- Through planned utilization from procurement of new tires to the final disposal of tires that no longer have value.

DEAL WITH MOUNTED ASSEMBLIES ONLY

- Reducing fleet in house labor cost and injury exposure for their employees since entire wheel and tire assemblies are returned to your location.
- No need to invest in tire mounting equipment, or safety gear and training as we handle the entire mount/dismount for your fleet.

INSPECTED & RETREADED

- Future utilization is determined from a fleet approved plan based on current and future needs placing the assets where they have the biggest impact on cost.

CASING, RETREAD & NEW TIRE INVENTORY

- Inventories are managed away from the Fleet location and are delivered on a "just in time basis" to reduce storage requirements, increase security and provide consistent tracking and accountability.

TRACKING TIRE PERFORMANCE & COSTS

- By handling all tires as they come out of service, performance data is captured and accurate cost information is provided.

MAXIMIZE COST-PER-MILE SAVINGS

- Maximizing cost-per-mile savings opportunities by utilizing all facets of this program overall lowest possible costs can be achieved.

FLEET SPECIFIC PROGRAMS

- Each program is tailored to the fleets individual needs. Contact us to discuss designing a specific program for your fleet.
- This program includes thorough grading and inspection of current tires and wheels to include the labor and support to mount, balance and return mounted tires and wheels on a "just in time basis".
